

EcoFlorZ™

Color Sealer

SMARTER CHEMISTRY. PERFORMANCE ENGINEERED.™

Concrete Color Effects:

Wood Color Effects:

All colors are made with VOC free commercial grade pigments and are formulated for semi-transparent natural stone effects on concrete or preserving the grain on wood when used with EcoFlorZ Color Sealer. Optional VOC free Infrared Reflective (I.R.) pigments are also available for the ultimate exterior U.V. protection. Colors shown are representative of actual colors which will vary by web, print, substrate color and type. You may order sample colors from your dealer or online at www.ecosafetyproducts.com to perform a color test.
