

**Eco-Fast™**  
**Cleaner & Polish  
Concentrate**

SMARTER CHEMISTRY. PERFORMANCE ENGINEERED.™

## Application Guide

**Supplies:** Empty re-usable spray or flip top bottle, lint free cloth.

**Intended Use:** Stainless steel equipment and appliances, elevators, escalators, stone and concrete countertops, wood furniture and trim, metal, fiberglass boat surfaces, tire dressing and more.

**Typical Dilution:** Stainless Steel: Full Strength to 3:1 water to concentrate mixture. Stone Countertops: 1:1 to 5:1. Wood Furniture: & Trim 1:1 to 10:1. Tire Dressing: Full Strength to 1:1.

**Application:** Determine dilution ratio if applicable then pour contents into a labeled spray bottle or pour-spout bottle and mix well. Spray Bottle: Spray on the surface and wipe with a clean lint free cloth. Wipe until the surface is free of soil or any smear. For heavily soiled areas, allow the cleaner to dwell for 30 seconds, then wipe or scrub clean. Repeat as necessary. Flip Top Pour-spout Bottle: Squirt a small amount onto a clean lint free cloth and wipe the surface to clean and polish.
