

SoyCrete™

Architectural Concrete Stain

With
Micro-Flo NG™
Technology

SoyCrete™ Architectural Concrete Stain with Micro-Flo NG™ technology is engineered for speed, durability, and the lowest cost per square foot. It delivers a wide array of variegated natural color effects without the use of toxic acid, reactive, or film forming polymer stains. Suitable for both interior and exterior applications on porous surfaces.

The Original, Most Trusted Bio-Based Brand By Leading “Green Builders” & Specifiers Who Demand Sustainability, Performance, and Value!
