

Standard Color Chart

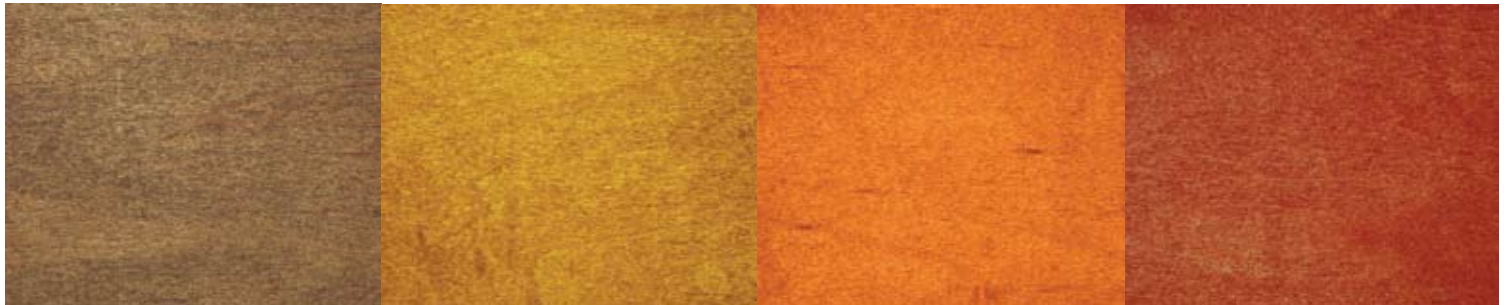

Oak

Birch

Natural

Maple

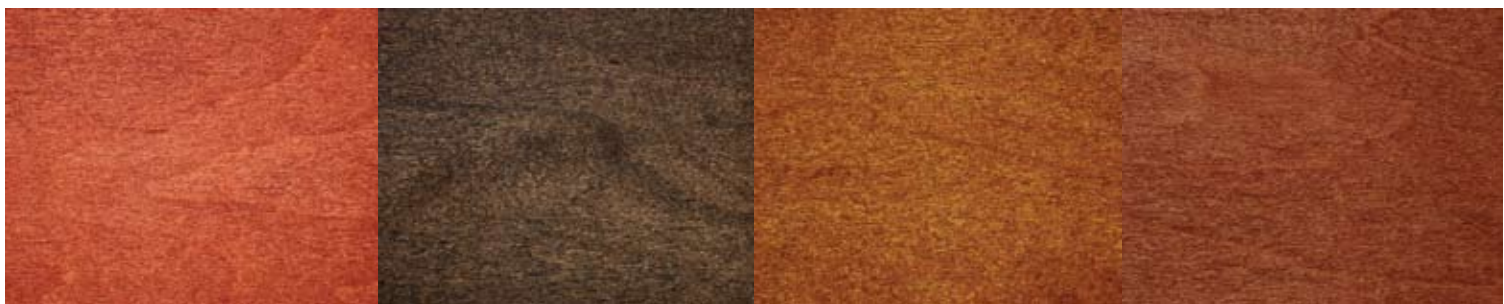

Walnut

Cedar

Redwood

Red Barn

Cherry

Deep Ebony

Cocoa

Mahogany

This standard color chart should be used for color representation only, as actual colors will vary depending on surface porosity, wood species, dwell time and application method. Colors will darken with longer dwell time or by additional coats if necessary.

Custom colors are available or simply mix colorant packs to reach your desired color. To observe actual colors on your specific substrate, you may purchase 2 ounce sample jars from your TimberSoy™ dealer.
